All luggage over this limit will be posted home at your expense. If this is not adhered to, then you may be asked to leave the tour with no refund of monies.

Safety Recommendations

Riders MUST have:

1. Efficient front and rear lighting which MUST be switched on in conditions of poor visibility.
2. Bright coloured clothing & bike helmet must be worn at all times whilst cycling.

4. Riders must be aware that road trains use these highways and it is recommended that riders must take necessary precautions to ensure their own safety.
5. Safety mirrors - no mirror, no riding.
6. All bicycles should be in first-rate mechanical order. If the bike is over 5 years old, all cables should be replaced, this is not too expensive but can be if left unattended. Worn chains and cassettes & brake blocks should also be replaced. Book in to your local bike shop for last minute maintenance. A limited supply of spares are available & spare bike carried in the event of a total breakdown.

Typical Riding Day (110 kms)

Wake up to the sound of birds or other riders preparing for the day ahead with zipping and packing up of tents.

Shower (if wanting or if shower available) and dress in riding clothes.

Collis will come around with plunger coffee some mornings- get in early.

Make your breakfast and prepare your snacks for the day.

Somewhere amongst this you will pack up your tent and clothing and place next to the truck or trailer ready for loading.

A briefing will be held in the morning at an allocated time and all riders are to attend. All routes, meal break times/locations will be discussed and expected arrival times given.

You will ride off with a group or solo- this is your choice. Just make sure you say goodbye to the organisers so they know what time to expect to see you throughout the day.

Ride following the directions provided at the briefing.

Morning tea has an allocated time usually around the 50 km mark and if a rider has not arrived within the times allocated then we will go back and look for them and see if assistance is required. Kathy provides a morning tea with an array of different snacks trying to cater to all tastes. Collis ensures we have sufficient hot water for tea or instant coffee. Coffee cups are provided and carried by CycleXOz. Morning tea or lunch breaks could be at a cafe or a park or just on the side of the road. It all depends on what is available for that day. Your food boxes and the eskies are accessible throughout the day.

Lunch will be at an allocated time and generally about the 80 km mark. Lunch is your responsibility and as stated all foods will be carried in the truck and accessible to all riders. We will stop at cafe's if available.

The riding day will usually finish around 1-2 pm, so this gives you plenty of time to choose the best spot to put up your tent in the allocated area. Shower again if available and tour the town/area we have arrived at. Check out the food providing facilities, work out what you will be doing for dinner and do any shopping that may be necessary.

The riders usually go to bed early and aren't usually night owls.
